

A BETTER WAY TO DO HOME INSURANCE

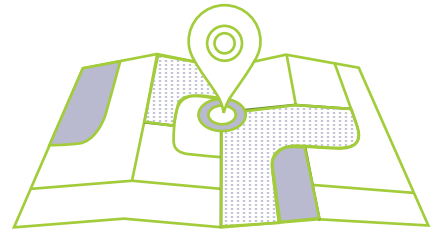

Who are we?

Our goal is to make home insurance easier and better for everyone. How? A lot of companies today aim to replace human interaction with Artificial Intelligence and bots...but, we firmly believe it's our collaboration with agents like you, alongside our AI, that makes our product and service unbeatable.

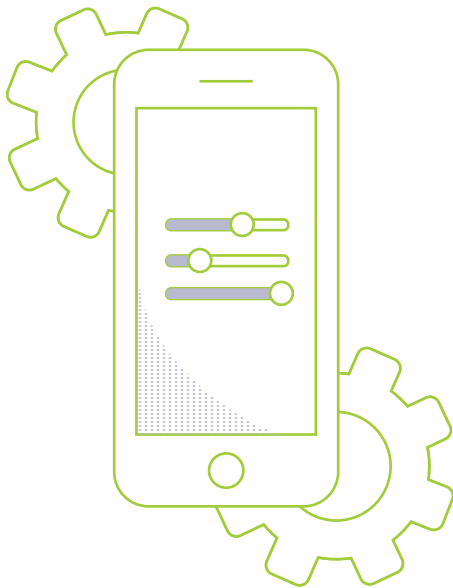

A bindable quote in 5 seconds - anchored in data science.

By combining a better user experience and big data, we enable you to price, quote and purchase home insurance in less than a minute, with just an address. That means you can spend more of your time writing business and less doing paperwork.

1515 Broadway Ave, New York NY

HOW IT WORKS

- 1 Enter your address**
We'll locate, analyze, optimize your coverage and get you a quote in less than 5 seconds.
- 2 Customize**
Adjust property coverage, deductibles and more with the simple click of a mouse.
- 3 Delivered to your inbox**
From quote to policy to your inbox in less than a minute.

TRUSTED BY AGENTS

How are we different?

We're the first in the industry to use LIDAR (light detection and ranging) data in our patented models. This allows us to gather and examine information about natural and manmade environments with greater accuracy and precision, and enables risk assessment at an address level. This means more accurate predictions for losses from hurricanes, fires and other perils.

Why that's better for you.

With our powerful insights, we can pass on any benefits to homeowners and you - in fact, we estimate that almost half of US homeowners could **save 10-20% per year** with Swyfft versus other insurers.

At your call.

Our customer support team is available to you Monday-Friday, 9am-5pm ET at:

 855-479-9338  customersupport@swyfft.com  swyfft.com/ContactUs

And, of course, your marketing rep is always available to help.
