HOMEOWNERS EQUIPMENT BREAKDOWN INSURANCE

What's Covered

Eventually, things break.

Prevention Tips

With homeowners equipment breakdown coverage you can rest easy.

Homeowners Equipment Breakdown Insurance

Homeowners Equipment Breakdown Insurance fills the gaps in your homeowners insurance. Most homeowners insurance policies don't cover the cost of repairing and replacing your home equipment when it breaks down. That's where Homeowners Equipment Breakdown Insurance comes in. It's easier to manage than dozens of individual warranties, simple to understand and affordable. Homeowners Equipment Breakdown Insurance is a must have for any modern-day homeowner.

01

Unplug your electronic devices when they are not in use, whenever possible. This can prevent equipment damage, as well as cut down on your electric bill.

02

Layer surge protection devices inside and outside to protect all of your equipment. With the right surge protection devices, you can prepare for everything from lightning strikes, to the voltage spike from starting up a new refrigerator.

03

Regularly clean and maintain all of your home's equipment and systems. For larger systems, have a licensed service professional inspect and service your equipment every year.
